4.3.1 Institution frequently updates its IT facilities including Wi-Fi

SOFT have been constantly updated with all IT facilities on regular basis. We have upgraded new IT equipment as per the requirements. It is also equipped with a wide range of licensed system software, applications and design software's. Computer labs are well connected with the high speed 150 mbps internet to help students and faculties for their academic work.

The institute has total 204 computers with a configuration of Intel core i5 8 GB RAM, 500 GB HDD, Dell/LG Monitors and 21 inch MAC for the students and faculties. Also we have IPAD Pro, MAC book Pro for the high quality design work.

Closed-circuit television: We have Installed HIKVISION HD cameras and 16 ports DVR in our classrooms, labs, hostel and at common areas.

LAN facility: We have implemented CISCO SG500 switches in our campus. Core layer switches in the buildings are connected with the Optical Fiber Ring Network.

Wi-Fi facility: IT department extend the complete support to the students. It is made available by setting and installing the Wi-Fi zones at various locations such as library, Hostel, Department corridors and at the craft village area. The institute has currently state-of-art TP Link Wi-Fi access points to provide the Wi-Fi internet access through Wi-Fi zones. The institute is planning to extend this further to create and establish a Wi-Fi enabled campus.

Intercom Facility: The campus is well connected with a well-planned Telecom Network with intercom facilities is provided. Four additional TATA PRI land line connections are available.
